

Mobile Nuclear Cardiology

Mobile Cardiac Imaging Service

The Mobile Nuclear Cardiology Solution from Diagnostic Imaging Solutions provides everything you need to offer complete nuclear medicine services at your office, satellite clinic or other healthcare facility. Utilizing DIS allows for greater patient convenience, higher patient satisfaction, improved outcomes and increased location potential.

Packages Include

NUCLEAR CARDIAC CAMERA

Imaging is performed using the Digirad Cardius, a state-of-the-art, high definition SPECT camera.

HIGHLY TRAINED STAFF

A Certified Nuclear Medicine Technologist and Cardiac Stress Technician provide the service.

ACCREDITATION & SUPPORT

Utilizing DIS services allows you to leverage our accreditation and simplify the reimbursement process.

Get a complete solution with no long-term commitment

With DIS, you can provide a full range of cardiac imaging services without the ongoing financial commitment of high camera lease payments, full-time technologists, stress techs, and service contracts.

How It Works

1. SELECT

Choose your package and determine how frequently you would like to offer imaging.

2. SCHEDULE

Schedule the patients who need cardiac imaging for your specific service days.

3. IMAGE

The DIS team arrives at your location with the equipment and provides stress tests to patients.

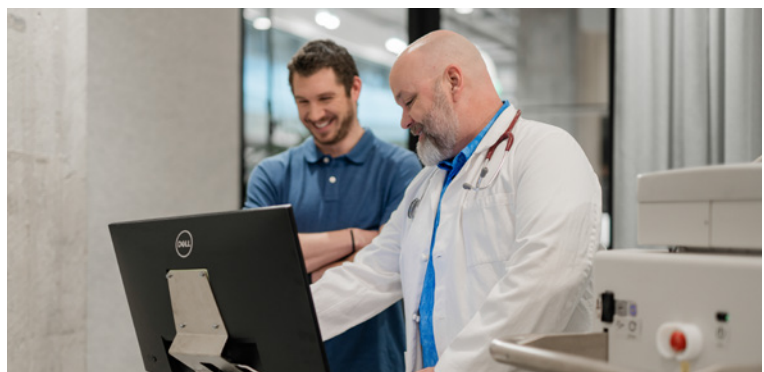

4. TRANSFER

DIS utilizes a cloud-based PACS to transfer images to your office.

Experience total control over your patients' exams, imaging protocols and final report formats with DIS.

Mobile Nuclear Medicine System

The DIS fleet is built around the Digirad Cardius® line-up of advanced, solid-state nuclear imaging systems. These SPECT-MPI cameras were specifically developed to meet the standards and needs of nuclear cardiology. The mobile nuclear medicine camera will pass through a 30" door opening and the small footprint fits easily within a standard size exam room.

Our Personnel

The DIS mobile nuclear cardiology service is performed by highly qualified, professionally certified nuclear medicine technologists. Our team of technologists and technicians provide excellence in patient care and are able to adapt to your environment to maintain a smooth operational department.
